

# Planned Parenthood Mega-abortionary

## Saint Paul, Minnesota

Please pray for the owners, CEOs and other directors of these companies. Ask God to change their hearts and move them to act morally, quitting their work for Planned Parenthood

Please contact these contractors who have decided to build a new killing center in St. Paul. Be civil, but firm in your contact. Let them know that they need to show moral integrity and cease their work for Planned Parenthood. And let them know you will not use their services unless they repent of aiding in this evil.

Joan M. Gresser, Director

---

*Please note: All of the listed contractors have worked at the building site for the new Planned Parenthood mega-abortion facility. All have been photographed on the job on multiple occasions. Every listed contractor was mailed a letter from Pro-Life Action Ministries with thorough information regarding Planned Parenthood and its involvement in killing unborn babies. Two contractors which responded directly to Pro-Life Action Ministries were either taken off the list or not added because of the explanations given. None of those remaining on the list have replied to us. Adequate time was given prior to listing these contractors here.*
